FOR IMMEDIATE RELEASE

CHICAGO AREA ACCOUNTING FIRM AWARDED ‘BEST PLACES TO WORK’

Porte Brown LLC, based in Elk Grove Village, chosen top 20 in Illinois

Elk Grove Village, IL – October 9, 2008 – Porte Brown LLC (www.portebrown.com), a CPA firm providing accounting, auditing, tax preparation services, and technology solutions, has been chosen one of the “Best Places to Work in Illinois.” The northwest suburban firm is one of 20 small and mid-sized firms recently recognized during a ceremony at the Oak Brook Hills Marriott.

“Being chosen one of the best places to work in the State of Illinois is a great honor for us here at Porte Brown. While our primary focus is on our clients’ needs, we couldn’t provide such personal service without experienced leadership and a strong and productive team” said Bruce G. Jones, Managing Partner.

The ‘Best Places to Work’ award is based on criteria developed by Best Companies Group of Harrisburg, PA following a thorough review of employee surveys and interviews. Porte Brown is one of two accounting firms chosen in the top 20 in the state of Illinois.

“We are pleased to recognize the best places to work in our state,” said James E. Elsener, president of Ledger Publishing and one of the co-sponsors of the event. “The quality of the top firms in each category is extremely high and we’re confident that they take great pride in being selected.” Other sponsors include the Illinois State Chamber of Commerce and the Illinois Chapter of the Society of Human Resource Managers.

For more than 60 years, Porte Brown LLC has provided accounting services to individuals and business throughout the suburbs of Chicago including Cook County and DuPage County. Porte Brown specializes in tax planning and preparation services, audit, business valuations, retirement plan administration and consulting. The CPA firm also focuses on technology solutions, providing computer consulting for clients, either by establishing a new network for their operational and accounting needs or working with an existing network with the help of Porte Brown Technology Solutions.
